

Our Bathroom and Shower Cleaner prevents soap scum and cleans showers and tubs effortlessly.

Use on showers, taps, sinks, tubs and tiled surfaces. Leaves the surface sparkling clean.

THE POWER OF NATURE:

Using the power of nature with plant derived ingredients; Green Cleaners' products are easy to use. Spray on or wipe over the dirty surface, leave to soak for a 60 seconds and simply wipe off with a dry or damp cloth. Light scrubbing will accelerate the results. Rinse off with water.

Caution: Not suitable for painted surfaces, marble and natural surfaces.

DIRECTIONS FOR DILUTION:

Our ultra-concentrate formula will make more than 20 litres of diluted product. This means we can reduce our packaging, transportation footprint and plastic usage, whilst you save \$\$\$s with cost effective cleaning solutions!

For normal usage: 1 part concentrated formula: 20 parts diluted water. For stubborn and heavy stains, concentrate can be increased accordingly.

Note: Approx. 3ml of concentrate dispensed with each pump.

| 1 | 2 | 3 | 4 | 5 |
|--|--|----------------------------|-------------|---------------|
| Prepare your Green Cleaners' sprayer bottle (500ml). | Add approx. 25ml of concentrated formula (approx. 8 pumps of concentrate). | Dilute to full with water. | Shake well. | Ready to use! |

INGREDIENTS:

Purified water, Proprietary non-ionic and anionic surfactants, Pine oil, Citrus extract, Coconut extract, sugar cane extract, essential oils and fragrances, Rheology modifier and stabilizer.

This cleaning product is recognized by the US EPA's Design for Environment program for using safe chemistry. The recognition signifies that the formula for this product, as the manufacturer has represented them to the Agency, contain ingredients that benefit human health and the environment.

ECO-CONSCIOUSNESS:

The choices we make in relation to which products we use have consequences for the planet. Our actions, with regards to usage and consumption, will determine the future of the Earth's environment. Green Cleaners' products are respectful to the aquatic life, meet strict biodegradability standards and reduce packaging with our revolutionary concentrate concept.

We are working hard to help protect our planet. Together we can make a difference.
